

Continuing Education Information from the NCREC

Courses Must Be Taken by June 10

Continuing education must be completed each annual license period between July 1 and June 10. It is very important to note that sponsors are not permitted to offer courses for CE credit between June 11 and June 30 of each year to allow time for sponsors to file reports to the Commission and for the Commission to process such reports. Thus, you will not be able to complete your CE requirement between June 11 and June 30 of each year

Don't Wait Until the Last Minute

1) Avoid the mad rush of procrastinators trying to take CE courses in May and early June. You will have a better choice of elective courses and a better chance of finding space available in both *Update* and elective courses if you take your CE courses early. You will also avoid the possibility of an unexpected conflict (illness, death in family, business emergency, etc.) preventing you from acquiring the required education by June 10.

2) Extensions of time to acquire CE while continuing on active status will be granted only in those instances where a licensee is unable to obtain CE in a timely manner due to an extreme hardship which existed for a substantial portion of the license period. Examples might include a member of the military stationed overseas or a licensee with an incapacitating illness for a substantial portion of the license period. You should contact the Commission well in advance of the June 30 license expiration date to obtain the required request form.
